Job objectives

Management

- Business development & strategy
- Product management and marketing
- Team management and leadership

Engineering

- User experience
- IDE / developer tools
- Mobile OSes

Work history

JetBrains (October, 2015 - March, 2022)

Product marketing manager in [AppCode](#) team

Drove product marketing, built communication with developer teams and communities; made a lot to make it much better.

e-legion (June 2014 — September 2015)

Project manager (mobile apps)

Managed several complex mobile projects as a project manager from the very first prototype and up to the final product published in stores. Built a predictable pre-sale and development processes, that increased project revenue a lot.

Goodwill Ltd (February 2013 — January 2014)

Team-lead (mobile apps)

Led mobile applications (food-dating apps for small crowds). Created a predictable development process, cut development costs in half.

Fotostrana (February 2012 — October 2012)

Product developer (Android application)

Created Android version of Fotostrana dating app from scratch as a developer, marketing specialist, product manager and one-man-for-everything. Top-50 in “Social networks” and top-10 in Google Play results (in Russia)

Axmor (August 2007 — February 2012)

Senior mobile developer and team lead

Started as a QA and finished working as a senior developer with team lead responsibilities. Successfully finished 15+ mobile projects (Windows Mobile, Blackberry, iOS, Android). Developed Evernote for Blackberry for two years - created a full-featured mobile application from a simple web view wrapper.

Nokia Portfolio Challenge

Created Evernote for Meego Harmattan (November 2011 - December 2011)

Created Evernote for Meego Harmattan and published the application to Nokia Store (so, won the “challenge”). 8k of installation all over the world.

After the Harmattan infrastructure went down, open-sourced the application code. Most of Evernote apps for Meego-based systems (such as [BlueWhale](#) or [EverSome](#)) were using it as a starting point.

Education

[Novosibirsk State University](#), rankings:

- Ph.D. Computer Science: 2009 - 2011
- M.S. Computer Science: 2004 - 2009
